

Ichiro's Malt & Grain 46% abv

Chichibu Distillery

Chichibu Distillery was founded by Ichiro Akuto in 2004 with the first whisky being released in 2008. Ichiro comes from a family with a long and respected history in sake brewing, that and his grandfathers Hanyu Whisky form a big part of the inspiration for the Chichibu Distillery.

Since 2008 the distillery has gained a cult following world-wide and is now the most celebrated of the new Japanese distilleries.

A combination of Chichibu whisky blended with whisky from around the world, notably Canada, the United States, Ireland and Scotland. The imported Whiskies were between three and five years old, aged in their country of origin before being carefully blended with Chichibu whisky and matured for a further 1-3 years at Chichibu.

Ichiro's Malt & Grain is a fantastic whisky for neat drinking but also makes a great ginger highball. With notes of banana bread and fruity undertones painted across the background with shades of apricot, orange and peach. A perfect whisky for all occasions.
